APPLY IN THE FIRST INSTANCE TO THE SALES AND MARKETING DIRECTOR

Ever get the feeling you're asking for a bit too much?

OR MAYBE YOU ARE ASKING THE WRONG PERSON!

As youngsters, we all revelled in the daring exploits of our favourite comic superhero characters. Today these same icons have made a spectacular comeback into our lives courtesy of a series of Hollywood blockbuster films and accompanying video games and merchandise. Indeed, there's hardly a household in the country that doesn't bear some allegiance to the likes of Batman, Spiderman, Superman and their various spin-offs.

Without a doubt, superheroes are here to stay!

Such is their status, however, they now come with a price tag that more than matches that of the world's superstar elite; film stars, rock stars and royalty.

Which is why Max Speed could soon become your very best friend!

Max is a legend in his own lap time. He's flown wingtip to wingtip with the very best of them, he's driven a plasma fuelled rocket car at over 1000 mph (with dire consequences it has to be said!) and he's piloted a jet boat at the speed of sound.

MAX IS FAST, FEARLESS AND FUTURISTIC.

He's got his own comic, extensive website and merchandise range.

And what's more, he's open to offers.

Quite simply, Max Speed is a new generation of "superheros-for-hire" with the interests of your marketing team very much to the fore.

So, if you want to make a real statement in life, do something different by recruiting Max Speed today.

For further details contact Guy Wrench on 01825 750699 or email max@wmo-creative.com

the WORLD'S HIS OYSTER!

Storylines surrounding Max and his friends are limitless. For the commercially minded they could include:-

- Where does he get his energy – could it be that special ingredient of yours?

- How does he see through walls – could it be your space aged technology?

- What is his next trick – could it involve that new product you have released?

- Why are his reactions so fast – could it be those super-chips you installed?

- How did he survive that accident – could it be your construction techniques?

- What is his latest passion – is it fitness; travel, fashion, computers, a new venue?

Or is he simply a refreshingly new superhero doing what kids want him to do; being fast, furious and utterly fearless!

The great thing about Max Speed is he's a non-conformist. So there are no rules and regulations to follow and there's no film studio looking to earn millions out of his endorsements.
